

We upgrade business communications.

PASCOM®

Fully Synchronised Unified Communications

For Desktop and Mobile.

SIMPLE TELEPHONY WAS YESTERDAY

THE FUTURE IS WITH UNIFIED COMMUNICATIONS.

With pascom at the heart of your business communications, you will have a centralised, intelligent telephony & collaboration hub at your fingertips enabling you to perfectly manage every aspect of your business communications.

**THE INDIVIDUAL TELEPHONE COCKPIT
FOR EVERY EMPLOYEE**

**THE HIGH PERFORMANCE CONTACT
CENTRE FOR YOUR COMPANY**

**THE MULTI-CHANNEL TEAM
BUILDER FOR YOUR CONFERENCING**

FULLY SYNCHRONISED

DESKTOP AND MOBILE UC CLIENTS.

No matter which App is currently open, no matter which device is being used: stay on top of your personal communication with everywhere, anytime accessibility packed into the same comfortable, user-friendly, intuitive design.

UNIFIED COMMUNICATIONS

ONE PLATFORM FOR EVERYTHING.

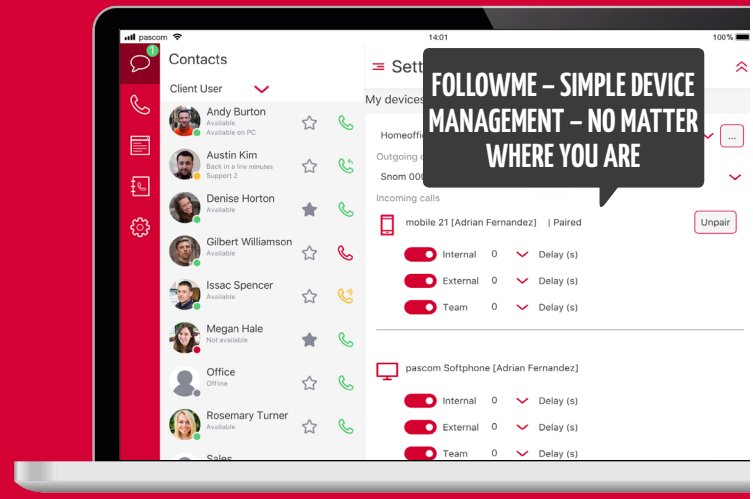

The pascom Unified Communications (UC) solution maps all your business conversations on one single platform and therefore delivers a more efficient telephony and collaboration experience. **Device independent and with synchronised access:**

HOTDESKING AND FOLLOWME

PERFECT DEVICE MANAGEMENT.

Employees who use multiple “desks” can easily switch between any number of locations and remain available under the same extension (One Number Concept). Using the FollowMe tools empowers users to manage which device should ring, when and for how long.

DRIVE PRODUCTIVITY

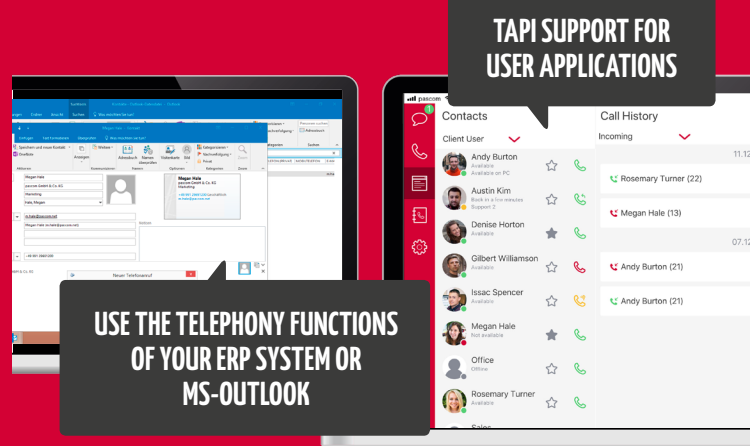

WITH COLLABORATION APPS.

pascom's Collaboration Tools encompass both technology and devices, allowing each user to use any combination of their preferred device(s). The integration possibilities offered by pascom know almost no limits.

TELEPHONE AND PC

SEAMLESSLY CONNECTED VIA TAPI

Start calls directly on your PC and comfortably utilise all your desktop tools directly from your screen thanks to pascom's TAPI driver and desktop client CTI tools.
