

WE'RE HIRING

Become part of our team in any of our
Deggendorf, Regensburg or Niš offices

We are looking for experienced developers to join our team!

Always one step ahead? Got an ace up your sleeve, a light bulb going off in your head, a brilliant plan, something that others haven't even dreamt of yet? Does the concept of having the best ideas and always being on the verge of leaving everything else behind fill you with excitement? Because nothing is more important than a plan that works? Did you answer these questions with a firm yes, or at least a concrete maybe? Then we should talk. Urgently.

You will have the opportunity to work on our Business Communications platform and master all the different techniques involved in a development project.

Technologies you will use:

Python ORM frameworks (Odoo, Django)

Javascript frameworks (Angular 2+)

GIT versioning system...

... And many other things because we are not afraid to try something new.

It would be great if:

You are familiar with Linux OS.

You know how to design and create REST APIs.

You have basic networking knowledge...

... You have a desire for continuous learning because we always find ways to improve our product.

And this may come in handy:

You've used Jira (or any other ticketing system) before.

You know how to use organize your work using Confluence.

You know your way around Asterisk dial plans.

You understand the use of Bash shell scripts.

You've worked with Golang before.

You are familiar with SIP and Protobuf protocols...

... You are a good team player because we believe helping one another is the way to success.

APPLY TODAY

for roles at our German headquarters or our branch office in Serbia.
